

DIGITAL PRESSURE INDICATOR & CONTROLLER**MODEL NO.: 10-DMLD****DIGITAL PRESSURE INDICATOR & CONTROLLER MODEL 10-DMLD**

Model : 10-DMLD is a mains-operated, microprocessor based pressure indicator and controller, which finds applications in industrial processes where accurate indication of pressure of expensive gases liquid and air is required. It has also features, which enables it for use in On/Off control applications. It is programmable for 1 or 2 independent alarm settings, provides potential free relay contacts for each alarm value with delay times settable from 0 to 50 seconds and factory set hysteresis from 5% to 20%. It has the facility for user-defined averaging of measurements to take care of fluctuations of the same. Can Measure : D.P. Pressure , Vacuum OR Positive Pressure

Above meter Provided with Copy of Master Traceable Calibration report from NABL Accredited Lab.

Manufactured & Marketed By :
M/S. Bombay Instrument Mfg. Co.

SHOP NO. 5 , 50/86, JITEKAR WADI
